

src/SubjectInterface.cpp

```
graph TD; A[src/SubjectInterface.cpp] --> B[../include/SubjectInterface.h]; A --> C[../include/moc_SubjectInterface.cpp];
```

The diagram illustrates the dependencies of the source file `src/SubjectInterface.cpp`. It is represented by a grey rectangular box at the top. Two blue arrows originate from the bottom of this box and point downwards to two separate white rectangular boxes. The left arrow points to the box containing `../include/SubjectInterface.h`, and the right arrow points to the box containing `../include/moc_SubjectInterface.cpp`. This visualizes that the source file depends on both the header file and the moc-generated file.

../include/SubjectInterface.h

../include/moc_SubjectInterface.cpp
