

include/ReadTrialNameFile.h

```
graph TD; A[include/ReadTrialNameFile.h] --> B[QString]; A --> C[QFile];
```

The diagram illustrates the dependencies of the header file `include/ReadTrialNameFile.h`. Two blue arrows originate from the bottom of the header file box and point to the boxes for `QString` and `QFile`, indicating that these Qt classes are included or used within the header file.

QString

QFile
